PROFILE

Data Analyst with 6+ months of experience driving analytics initiatives in fintech, specializing in transforming raw data into actionable business insights. Proficient in Power BI, Looker Studio, Excel, and SQL, with proven track record building dashboards that improve team performance and decision-making. ALX-certified in Data Analytics with hands-on experience in statistical analysis, data visualization, and ETL processes. Seeking to leverage fintech domain expertise and technical skills as a Data Analyst.

SKILLS

Machine Learning & Deployment: Supervised/Unsupervised Learning, Feature Engineering, Sentiment Analysis (NLP), Streamlit

Languages & Querying: Python (Pandas, NumPy, Scikit-Learn), SQL (PostgreSQL, DuckDB), Bash/Git

BI & Data Visualization: Power BI (DAX, Power Query), Looker Studio, Advanced Excel, Plotly, Matplotlib

Analytics & Data Engineering:: ETL Pipelines, EDA, Statistical Testing

PROJECTS

Retail Supply Chain Analytics

- Built an end-to-end Medallion Architecture (Bronze to Silver to Gold) in DuckDB using Python to clean, standardize, and type-cast multi-source operational retail data.
- Engineered a unified weekly exposure fact table (FULL OUTER JOIN) combining sales demand, ending stock, and net warehouse transfers at the (Week, Location, SKU) grain.
- Modeled a Kimball Star Schema in Power BI with custom DAX measures (SUMX, CALCULATE, DIVIDE) to calculate absolute movement volume and quantify low-stock risks.
- Designed an interactive 3-page executive dashboard (Overview, Sales Analysis, Inventory Risk) with an ISO 8601 week-based dynamic calendar hierarchy.
- Tech: Python, DuckDB, SQL, Power BI, DAX

Marketing Analytics & Customer Sentiment Analysis

- Processed unstructured customer feedback and campaign performance metrics using Python and SQL data cleaning workflows.
- Applied Sentiment Analysis (NLP) to classify customer reviews and social interactions into structured sentiment categories.
- Built an interactive Power BI report featuring DAX measures to track sentiment trends over time, campaign ROI, and customer churn risk indicators.
- Designed dynamic visuals enabling marketing teams to slice sentiment driver metrics by product line, region, and ad channel.
- Tech: Power BI, Python, NLP, SQL, DAX

Customer Churn Analysis Dashboard — Power BI Case Study(Datacamp)

- Built interactive Power BI dashboard analyzing churn patterns for telecom company Databel.
- Built interactive dashboard with DAX measures, calculated columns, and drill-through capabilities
- Identified key churn drivers including [contract type/tenure/payment method] and quantified revenue impact
- Created stakeholder-ready visual report with actionable recommendations for retention team
- Tech: Power BI, DAX, Power Query, Data Modeling

CineMatch AI — Hybrid Movie Recommender System

- Built end-to-end hybrid recommender processing 10M+ MovieLens ratings using SVD (bias + latent factors).
- Achieved RMSE 0.8794, outperforming baseline by 17% through feature engineering and hyperparameter tuning.
- Deployed interactive Streamlit web app with fuzzy search and real-time similarity matching.
- Tech: Python, Scikit-learn, Pandas, NumPy, Streamlit

WORK EXPERIENCE

- Tabby,, Senior Social Media Specialist — Data & Analytics**

01/2026 – Present

 - Led data analytics initiatives for the social media team, transforming raw engagement data into actionable insights using Excel, Google Sheets.
 - Built interactive Looker Studio, Power BI dashboards to track team KPIs including response time, CSAT scores, and engagement rates, enabling data-driven performance reviews
 - Conducted weekly data analysis to identify trends in customer inquiries, reducing average resolution time through targeted process adjustments.
- Tabby, Social Media Specialist - Customer Support**

09/2024 – Present

 - Monitored and managed real-time customer engagement across social platforms, ensuring alignment with service level goals (SLAs).
 - Utilized social listening tools to monitor brand mentions and proactively addressed volume spikes to maintain brand reputation.
 - Collaborated with internal teams to resolve escalated issues, providing feedback on process improvements and operational efficiency.
- Tabby, Customer Support Representative**

01/2024 – 08/2024

 - Managed real-time inquiry volume across chat, email, and phone, maintaining high productivity and adherence to schedule.
 - Consistently achieved a 92%+ Customer Satisfaction (CSAT) score by providing empathetic and accurate solutions.
 - Analyzed individual performance metrics to identify trends and participated in feedback sessions to improve overall team service levels.
 - Recognized by management for exceptional de-escalation skills and the ability to work effectively in a fast-paced, dynamic environment.

EDUCATION

Helwan University, Bachelor of Science

2024 | Helwan, Egypt

CERTIFICATIONS

- Data Science Certificate | ALX Africa — Apr 2026
- Machine Learning Certificate | ALX Africa — Apr 2026
- Data Analytics Professional Certificate | ALX Africa — Sep 2025
- Python Programming Certificate | ALX Africa, 2025

PROFESSIONAL DEVELOPMENT / TRAINING

Professional Foundations, ALX Africa, 2025

AI Career Essentials (AiCE), ALX Africa, 2025
